@geennaam

Same crash happening on my system.

On the other hand, I think RX 550 / RX 560 is actually step down from R7 265 / R9 270

Please see the GPU benchmark:

<https://gpu.userbenchmark.com/Compare/...vs-AMD-R9-270X/3926vs2188>

Real update for us would be RX-580 which I have but it doesn't support Warp3D Nova yet on X5000 / A1222
