Thx! Some Boing-Cake on the way ;)

Yeah, got it, thanks for :)

Are those special gles4 lib automatically picked up when i compile a ogles2 target?  
Especially interested in SDL1/2

edit:

oh wait, i think i'm mixing things up again...

Yeah, both SDL1 and SDL2 for gl4es have special changes in which i replace MiniGL on GL4ES (so open ogles2 context, etc, etc) and so pure ones non-go as will open minigl.
