Hmm, now the shared build refuse to see sdl_openurl, while static is fine :-/

```
backends/platform/sdl/sdl.o: In function 'OSystem_SDL::openUrl(common::String const&);  
backends/platform/sdl/sdl.cpp:664: undefined reference to 'SDL_OpenURL'  
backends/platform/sdl/sdl.o: In function 'OSystem_SDL::getSystemLanguage()const':  
./backends/platform/sdl/sdl.h:69: undefined reference to 'SDL_OpenURL'
```
