No booting of any OS.

You need a cable that can handle being bent a bit several times .

I have been using one of these over the last 3 years or so when I am using a Dual slot card.

https://www.amazon.com/gp/product/B073...tle_o08_s00?ie=UTF8&psc=1

or if you are intersted in Radeon RX cards there are nice single slot models.

This is my single slot model :
