I see, that on hdlag.org.nl your HD7750 card is described like "Radeon HD 7750 1024MB GDDR5, PCIE 3.0 SingleSlot" - not only HD7700 series.

Please, how do you changed it?

I want to write exact description to my cards, but if i click "(Details above incorrect? Submit a correction)" on card result page, write the details + "Submit", allways get Server Error.
