There is a big list of changes here:

<https://www.hyperion-entertainment.com ... as-released-and-available>

As someone who has spent time and energy on AmigaOS 4, I have to wonder what kind of commitment Hyperion really has to the NG side. Clearly they have spent a good deal of time on Classic to get this update done. I also suspect that this Classic release might make some real money for them given the amount of hardware out there.

Just seems like a step sideways to me but that's just my opinion.
