I have this :

```
Assign AmiCygrix Applis:Programmation/AmiCygrix/  
;BEGIN Cygnix  
assign Cygnix: "Applis:Programmation/AmiCygrix"  
execute Cygnix:s/Cygnix-Startup  
;END Cygnix
```

maybe the first assign is not needed ?? I dont recall modify it manually...

Yes, please delete the first assign. I think this was manually added. The installer script only changes the lines between ";BEGIN Cygnix" and ";END Cygnix".
