Yep, I hear you.

Lately everything regarding amigaos4 does that to people.

You either shrug it off and continue the path you chose to walk, with all the bitterness, hate and negativity induced comments, or walk away and enjoy what you have in your own little space on this planet.

Don't let stupid close minded individuals destroy what fun is left in this hobby project.

Follow your heart and whatever decision you finally take, I applaud you for your work already done and what you achieved for the community.

Thank you, I mean it.

After all, \*this\* (\*waves around arms\*) is so unbelievable unimportant...
