Don't sweat it. People love to argue, especially around here. Amigans tend to be rather, um, passionate about their views.

You are right. But I don't believe this is something that has to do only with amigans. In other communities things are even worse. Linux community is even more aggressive. I think this happens on every community.

At least, I believe that here in amigans.net, we deal all things in a pretty good way. If not, and if anyone is offended in here, or saw something bad, please contact me or Orgin and we will do the best we can to solve the issue.
