Promote projects for donations

The last weeks I am thinking if it makes sense and how we could promote projects (websites/applications/general causes) in amigans.net, that deserve people to help with donations/hardware etc.. I mean, there are people that would like to get donated something from the community, and we don't even know that, i.e. I believe that a lot of people do not know how to donate to Aminet.net, who do not mention anything at their website, but just in their wiki ([http://wiki.aminet.net/index.php/Donate to Aminet](http://wiki.aminet.net/index.php/Donate_to_Aminet)).

I would like to ask you guys for ideas how we could present projects that deserve donations and how would that be accessible to everyone? Maybe a Donation page would be enough. Or a block at one of the sides of the page, that shows randomly a project out of a specific list, and a way to see them all.

Or even, if we wanna make it more interesting, a new forum section where we discuss and vote for the project we would like to donate to next month.

I don't know. Feel free to shoot some ideas.

My goal is to help people find projects to donate to, if they want.
