TuneNet Update - When?

URL:

I've had a number of emails lately asking when the next version of TuneNet will be out. So I've put together a little news update and some screenshots on the homepage (www.tunenet.co.uk) for anybody that's interested.

For those who just want to know the answer to the question of "when?" - I'd say in about two weeks time. No full skin GUI in this update however, but some new playing features and some enhancements to the reaction GUI.

Cheers,
Bean.
