I agree with ChrisH. JXFS is not "several times" faster than SFS2. Simply make a try in the same partition with different filesystems.

In my review of AmigaOS 4.1, JXFS was not really faster than SFS or SFS2 :

<http://obligement.free.fr/articles/amigaos41.php> (first table)

If somebody else could do some test on his hard drive, it could confirm this (or not).
