and this is the problem - warp3d does **not** work, if the libs are not placed in the "first" of the assigns.  
so i just copied them from SYS:LIBS to Programs:LIBS and now it all works fine.

Warp3D scans for libraries via a DOS call:

```
err = IDOS->MatchFirst((STRPTR)"libs:Warp3D/HWdrivers/#?.library", ap);
```

I assume this doesn't work with added assigns, hence it doesn't find any...
