Hi Guys,

I will make sure that the delete key works in the next version on the Reaction GUI at least.

In the mean time, click the drop down arrow to the left of the tune search bar (on the reaction GUI) and select "Edit Functions". You can now move the tracks around with the buttons and clicking the "X" button deletes a track. 😊

Cheers,
Bean.

They haven't been playing around with it enough 🙄, I use that "EDIT" a lot for removing unwanted tracks 🙄
