Gnash 0.8.7 released

Author: : samo79

Date: : 2010/2/15 19:04:07

URL:

Off course not yet for OS4 but new mainstream version is available, here the changes:

Quote:

- * Automatic and spontaneous screenshots support in all GUIs
- * Significant memory savings in parsing large XML trees and in some function calls
- * Enhancements in video streaming
- * Non blocking load of bitmaps, movies, data
- * Refactoring to eliminate most static data and get closer to re-entrant VM
- * Cygnal now supports multiple network connections, handling multiple video streams
- * Cygnal now supports plugins for server side scripting in C/C++
- * Improved packaging support for deb and rpm
