There is a patch here. It is just the exe, so you'll need to install it on top of the older release.

<http://www.tunenet.co.uk/download/TN09258.lha>

Please can you let me know if it solves the two issues mentioned above?.

Wow, what service!

I'll give it a try later tonight and let you know how it goes. Right now I'm stuck at work.
