AFAIK, the OS4 dev team is always open to new developers.

I've always thought they had enough already or that they're not looking for more.

Can there ever be enough developers?

Seriously, I'd imagine they're always interested in seeing more qualified people who want to put in the work. Of course, this is for one of the devs to jump in and describe.

That doesn't even touch on the development of apps that are in demand.
