Hi, Helgis.

When you talk about "BEOS" think something like this ?

<http://www.amigans.net/modules/myalbum/photo.php?lid=293>

It's the look that I remember of BEOS, there is a theme called ATEZ similar, but in yellow.

I'm working in a blue version (look the image in the link), but at the moment is a preview, need change some basics like buttons, colours , etc.

in a few days i try to put the final version in the net, as the new and reworked version of the SilverBlue.
