Partition Limits:

FFS2: 2,2 TB if the blocksize is 512 bytes, more if you use a higher blocksize.

SFS/00: 128 GB

SFS/02: 1 TB * blocksize / 512

JXFS: only joerg knows, but it should play in same class as SFS/02

There are no repair/optimize or other tools for SFS/02 and JXFS.
