A-GO-KNEE A-GO-KNEE!!!!

I wish that they'd release more details....

BUT I wish that when they say "We are starting to sell it...." that the time will be **one week** before a person can **actually buy it**. They should even say NOW how much time it will be between the announcement "it will be sold...." and the day it WILL be sold.

I very much hope that it has an external VGA and/or DVI connector. 🙏
