Wet v6.3: AM and PM are reversed

chris,

this is an odd one, but for some reason wet 6.3 under AOS4.1u5 swaps AM and PM in the times provided by my local reporting station. in my case this is the KOXC site.

for example it reports that the sun rises at 3:21PM and sets at 6AM. this means that the night icons show during the day and the day icons show during the night.

has anyone else seen this?
