Hi Hubert,

Details emailed but I will reply here for the benefit of anyone else.

You can download the 1.6 update from <http://www.digitaluniverse.org.uk/installfiles/>

AmiUpdate has not been updated yet for this newer location, but will be when v1.7 is released.

To login you will need a UID and a password.

The UID is your name which is case sensitive and must have no spaces.

eg.

John Smith would have the UID "JohnSmith".

The password is your DU registration number which is not case sensitive and can be with or without the spaces.

If you want your UID to be something else let me know.

Bill.
