There is some small progress report of what we (by we there is Xenic only:) ) do:

-xenic convert all documentation now to PDF format (you can grab it from Trunk/Documents/).

-xenic almost rewrite dopus5.library, but he have some problems and we need some help from others (jens and itix seems busy for now, so we want to sort it faster without long waiting).

Plz, anyone who know programming, check this thread careful: <http://sourceforge.net/p/dopus5allami ... sion/dev/thread/1ae4ae07/>

(in the thread you can find out attached changes as well, just read topic fully)

And answers here or in that thread or via mails or whatever..
