Yep, i already noted that one yesterday when briefly scan amibay, and its all seems ok imho. We can just ask him for mb + cpu + ram + radeon, for just about 450, and then buy ourselves os4 copy (which is about 100E more, but i can cover latest bits from my own) for peg2.

I just wait till amibay admin will register me there, so i will be able to wrote posts. In meantime, maybe you can just drop me his mail in pm ?
