@Hans

I just check readme of jtelnet, and that what they say:

Quote:

```
To run type: java -cp jtelnet.jar thor.app.telnet [hostname]
```

So, i just unpack jtelnet-withall.jar (which have inside jtelnet.jar), and so do:

Quote:

```
jamiga:jamvm -classpath jtelnet.jar thor.app.telnet 192.168.1.1
```

Same error. Also tried with -cp instead of classpath, the same error as well..
