"binary works fine" means that by command curl, I succeeded to access to my NAS.

Yes, same error by using

-last crt from curl website

-crt from MOS OWB 1.23

"ignoring ssl errors" doesn't work on OWB 1.23 OS4 version

"ignoring ssl errors" works on OWB 1.23 MOS3 version

"ignoring ssl errors" works on OWB 1.16 AOS4 version
