To my understanding the port of winUAE is impossible (according to WinUAE author).

IIRC, winUAE is highly undocumented hobbyproject with strong x86 assembly bindings etc.

Not sure if FS-UAE is a cleaner UAE version, IIRC, et exist also for Linux unlike WinUAE.

UPDATE: "FS-UAE integrates the most accurate Amiga emulation code available from WinUAE."

I doubt FS-UAE is possible outside x86 because of that, especially not with JIT. (I hope someone can prove me wrong)
