URL:

These are the currently open projects on OpenAmiga.

[Gutenprint 5.2](#)

[Uniform ARexx Dictionary Interface](#)

[Message subscription broker](#)

[ReAction menu.class](#)

[Graphical Common Download Manager](#)

[Quick user space application to terminate runaway apps.](#)

[Listbrowser gadget with cell mode](#)

[Emblem icon plugin](#)

[Embedded menus](#)

[Clipboard selector](#)

[Screenshot utility](#)

[Nvidia 2D graphics driver](#)

[Multiuser advanced](#)

[Assign manager](#)

If you're interested in picking up any of these projects then send a PM to me here on [amigans.net](#) or on

[Openamiga.org](#)

I'm currently in the process of verifying the status of all assigned projects which may result in that the open projects list will grow a bit.
