So you see, it seems i was right

Half of: urlopen still works even before, just mailto was broken as refers on openurl. Check new poll: [vote](#)

would be nice if you can complete it adding also a little Odyssey icon into the notification window

Yes, that what i think to do too, as its a bit too empty now.

The new TopSites\_Grid.html from Sinisrus, the default one was broken

Dunno if it broken ? Probably just works different ? As if it broken, Fab should be noted to fix it on original too.

Make the remained (new) strings translatable ?

Which ones ?
