You may try that one:

<http://www.sendspace.com/file/uv1ymw>

Its r2 just with first fixes which come to r3.

But just for sake of tests give me plz that info:

- 1). your prefs:input (screenshot better)
- 2). your prefs:locale (and preferred languages if you have) (screenshot better)
- 3). screenshot of your odyssey's font settings
- 4). where i need to go on transifex.com to see problem

So i can just check on my setup and see if i can reproduce and do anything about.
