WookieChat 2.12 (27.01.10)

Author: : VooDoo

Date: : 2014/9/15 14:12:06

URL:

Using this Wookiechat from topic name..and from unkown reason causing some freezing... no any DSI error..
Running just fine...and after some time of use freezing my system..mouse stop working and screen is
frozen...but TuneNet palying music in background..

Only reset is way :)

All help is welcomed!

using OS4.1 upd 6 and last MUI ..
