Ok, I get the point, it seems the old classic tricks might be needed, eg. booting bare workbench with no wbstartup stuff etc. might be needed.

@Spectre660

Try booting with the left shift held down, this disables wbstartup. then try:

```
mplayer -benchmark -nosound -vo null -lavdopts skiploopfilter=all  
User:Work/Downloads/big_buck_bunny_720p_surround.avi
```
