You'll need to wait a day or two to get the new compile. I broke the compiles for all the non-OS4 platforms.

Working in a repository designed to compile for other platforms sucks when you don't have the other platforms to test with. The OS4 compile failed on the Utility Strlen command, so I'm guessing that kas1e's OS4 includes aren't exactly the same as mine. I'll commit some changes and tommorrow we'll see if they worked.
