Hi everyone,

to anyone who might be interested getting a professional cooling solution for the X1000 Nemo, please visit my Website. <http://www.marcus.computer/>

I develop, produce and also modify existing systems.

So I have started on January 30th, 2015 with my own Online Shop for High Quality NG Amiga Accessories and new AmigaONE chassis.

Unfortunately I was not able yet to translate the site into English. So bare with me, I will do this in the next couple weeks.

See you there, I hope you like it.

Marcus
