Since few days, the first video in SMTube list is a "[www.youtube.com/devicesupport](http://www.youtube.com/devicesupport)";  
"YouTube is upgrading to a newer version, which is not supported by this device or app..."

SMTube will be soon unusable...

Maybe that it could be useful to give feedbacks and motivation to his author, Rvm, to motivate him to adapt SMTube.

Please, if you used SMTube a lot since 2013, register and send feedbacks in this thread :
