Yes, limits.h is in the configure.

Btw, there is a ifdef in the source.

```
#ifdef __SDTC__  
#include <limits.h>  
#else  
#include <assert.h>  
#endif
```

And the function:

```
pixman_bool_t pixman_multiply_overflows_size (size_t a, size_t b)  
{  
return a>=SIZE_MAX / b); //line 36  
}
```
