so it isn't really solved is it?

Yes it is. Chris' problem was getting it to run on his Sam440, where it was supposed to work. It is already known (and documented) that it doesn't work on the X1000.

Quote:

and what is that program?

<http://os4depot.net/index.php?function=showfile&file=development/debug/hieronymus.lha>

Best regards,

Niels
