Hi,

I'm only interested by an OS4 version.

But before to pledge i wanted to know

1) if the co-op mode will be playable on the same computer (split screen) or exclusively in LAN/WAN ?

2) i know that even if the goal is reached nothing guarantee that an OS4 version will be produced (eventually, a lack in the OS could make the port impossible) but, Daytona, do you think that the port could be easy or not ?

3) what is "exclusive backer character" in the 45€ pledge ?

Thank you for your reply
